**Silverstream**  
ENERGY NIGERIA LIMITED

corporate profile

*“ involved in providing environmental protection solution, targeted at the oil & gas, marine and automotive sectors. ”*

## Who we are

**Silverstream** is both an energy sector focused company principally involved in providing environmental protection solution, targeted at the oil & gas, marine and automotive sectors. Silverstream also has interest in the provision of renewable energy equipment as well as the supply & distribution of all forms of petroleum products.

With the acquisition of the exclusive distribution rights to

**DE -OIL-IT**, the world's best oil spill eliminator and degreaser, we are poised to provide a refreshing approach to environmental chemical and renewable energy solutions in Nigeria.

Silverstream, through its sister company Silverstream Nutrition Limited also has the distribution rights to the **SCITEC Nutrition** range of sports & dietary supplements.

## PRODUCTS & SERVICES

- Supply of oil spill remediation and cleaning solutions
- Solar Energy Kiosk
- Sales and Distribution of Petroleum Products
- Sales and Distribution of Life Style and Sport Dietary Supplement

## PARTNERS

1. Green World Products, LLC. USA
2. Trinidad Tank & Fuel Solutions, Trinidad & Tobago
3. SCITEC Nutrition, Hungary
4. Porgatio Solutions Limited, Nigeria

# Oil Spill Remediation and Cleaning Solutions

# DE-OIL-IT

Engineered to be extremely effective on hydrocarbon oil and lipid fats

**DE-OIL-IT** is an environmentally safe industrial strength degreaser and general-purpose cleaner. It is a non-toxic, non-flammable, non-corrosive system of surfactant and oil solubilizers, which dissolve grease and grime by way of micelle formation.

When **DE-OIL-IT** is used in a pressure washer or used with agitation (usually using a scrub brush or a broom), the surface-active agents in **DE-OIL-IT** penetrate oil, grease, and grime and cause it to disperse into a colloidal suspension which can be rinsed away from a surface or dispersed by dilution in a body of water.

#### HOW DOES **DE-OIL-IT** WORK?

De-Oil-It breaks down the oils and lipids into millions of molecular sized particles and will not allow them to quickly regenerate like other detergent type cleaners, making clean up easier and more efficient. When you rub your finger across a surface cleaned with **DE-OIL-IT**, you should be able to feel that it is squeaky clean the first time.

As these millions of molecular sized particles of oils and lipids are washed down the drain, they remain broken down for a longer period of time allowing natural biodegrading to occur. The natural biodegrading occurs when microbes attach themselves to these molecular sized particles and are able to consume them, causing them to completely biodegrade.

The natural biodegrading occurs when microbes attach themselves to these molecular sized particles and are able to consume them, causing them to completely biodegrade.

When most detergents are applied to oils and lipids (greases), they attempt to break down the oils and lipids into molecular sized particles and carry them away with rinsing water. The problem is most detergents do not have the ability to keep the oils and lipids from reconstituting into their original state, leaving a greasy residue on the surface and the need for numerous attempts before the surface is clean.

When you rub your finger across the surface, you can still feel the greasy residue left behind. When it is washed down the drain, the oil or grease reconstitutes causing an oily or greasy mess in the sewage system that cannot biodegrade and that keeps growing as more and more greasy residue is washed down the drain.

Since **DE-OIL-IT** is a non-toxic blend of chemicals which works by colloidal formation to remove oil,

grease and grime safely, easily and efficiently, it works differently than solvents or caustic-based cleaners.

**DE-OIL-IT** may be used at any temperature below 180 degrees Fahrenheit. Whatever the application, we recommend the solution be allowed to stand on the surface before rinsing to permit the colloidal action to work at the recommended solution strength. Should a stronger solution be desired, it may be used without fear of damage to surfaces because **DE-OIL-IT** contains no harsh chemicals or solvents.

#### **DE-OIL-IT IS SAFE TO USE AND DOES NOT REQUIRE STANDARD EYE PROTECTION OR VENTILATION MEASURES.**

Should De-Oil-It concentrate come in contact with eyes, simply flush with clean water. **DE-OIL-IT** has excellent storage stability (in excess of five years). It contains no heavy metals, organic solvents, non-biodegradable materials to make wastewater disposal difficult. **DE-OIL-IT** quickly dissolves in hot-or-cold, hard-or-soft, fresh-or-salt water. It has the effectiveness of petroleum solvents without the usual associated fire hazard and negative environmental impact.

Recommended standard mixing dilutions are:

1:5 for extra heavy cleaning, 1:10 for standard commercial cleaning such as floors, walls, commercial exhaust hoods, tables etc, and 1:15 for general light cleaning.

- Oil spill cleanup in-situ and ex-situ
- Soil reclamation
- Bioremediation oil slick dispersant
- Refinery waste treatment
- Environmentally safe degreaser
- Coil tubing cleaner
- Engine cleaner, heavy equipment & vehicles, shop tools, floors, etc...
- Oil spill and driveway cleaner
- Parts cleaner and shop cleaner
- Rig wash Well bore cleaner
- Slick water surfactant
- Water flood surfactant
- Tank Cleaner / Bilge Cleaner
- No special handling required
- No gloves, respirators, face shields
- Use as hand cleaner for oil and grease removal
- Removes grease, oil spots and foul odors from work clothes
- Industrial Strength - Environmentally Safe – Safe and easy to use

## Oil & Chemical Spill Cleaning, Decontamination & General Cleaning

Tank Cleaning, Vessels/Boats and Power Generating houses & station Cleaning & Decontamination Services

Oil Spills have become a rather frequent occurrence within the oil producing areas in Nigeria and anything from a few hundred gallons per barrel to millions of gallons per barrel are spewed onto farm lands, into inland waters and marshes as well as into major water bodies. Similarly oil spills and chemical contamination occur in our other everyday activities, whether in a typical petroleum tank farm, onboard a vessel, oil production platforms, refineries, filling stations or simply in the generator houses and stations.

Silverstream with its team of highly skilled personnel, in collaboration with our international partners as well as local affiliates provides the best and most cost effective cleaning service primarily using the world's best oil spill eliminator and degreaser chemical – **DE-OIL-IT**. Whether on land, in the creeks on water we present the best option for your oil spill clean up

# OIL SPILL REMEDIATION & DEGREASERS SOLUTIONS

WHERE DO  
YOU THINK  
ALL THIS TOXIC  
GREASE & OIL  
ENDS UP...

LEARN MORE »

**When you power-wash with DE-OIL-IT... there is no toxic waste! DE-OIL-IT is the non-toxic, biodegradable solution that cleans, degreases then completely degrades every type of petroleum waste until its gone.**

- ✓ **DE-OIL-IT** can be applied with power washers or any of the other methods typically used for washing heavy equipment.
- ✓ The run-off wash follows and remediates ground and down-stream contamination. Even contaminated soil at any depth. Clean core samples are realized within 60 to 90 days.
- ✓ Saves time and money - no soil removal, no toxic trash to discard. There is simply nothing left to clean up.
- ✓ **DE-OIL-IT** does **NOT** hurt the environment. Non toxic, non microbial, no enzymes or nutrients. Biodegradable. Safe to Use, safe for your employees, safe for the world.

*Kick the slick out of it!*

## FUEL TREATMENT SOLUTIONS

Evidence has shown that various forms of impurities and particularly moisture/water find their way into storage facilities for fuel we use in our automobiles and other mechanicals such as generators, lawnmowers and boats. These impurities particularly water, contaminate the fuel thereby expediting the process of gum formation and oxidation and eventually cause phase separation. It is this deteriorated state of the fuel that clogs injectors, filters and various other components that lead to costly repairs and poor engine performance.

Fuel Medic is a fuel additive that not only stabilizes the fuel but also remediates it. Fuel Medic does not contain alcohol or metals that can harm engines rather it helps to reduce smoke emission and fuel consumption.

Fuel Medic treats all fuels diesel, gasoline, ethanol and various other deviations. It is available to everyone, including companies, fleet companies and government agencies that would find the use of our product would help to save millions of Naira in preventive maintenance and fuel reduction.

**IF IT HAS AN ENGINE WE CAN PROTECT IT!**

**Why FUEL MEDIC?**  
**Our Unique Water Dispersion Technology Sets Us Apart!**

Water is attracted to your fuel by ethanol. Once moisture and fuel combine, it expedites the formation of gums, oxidation, and will eventually cause phase separation. Fuel Medic effectively removes water from the fuel where others just stabilize the fuel.

**Our Additive Will:**

- ✓ Remove Water
- ✓ Remove Varnish
- ✓ Works on all 2 & 4 cycle engines
- ✓ Stabilizes Fuel
- ✓ Add Lubrication
- ✓ Prevent Phase Separation
- ✓ Reverse Most Ethanol Issues

# SCITEC<sup>®</sup> NUTRITION

## Life Style & Sport Dietary Supplements

### SCITEC NUTRITION

SCITEC sports and dietary supplements are manufactured by SCITEC Nutrition, Hungary, one of the foremost sports nutrition companies in the world.

It is the leading dietary supplement brand in Europe with more than 700 product variants and 115 flavours. SCITEC range of products is of premium quality, state-of-the-art presentation and uncompromised

ingredient quality. There are absolutely no illegal ingredients in any of their products.

Available products include, Protein Shakes, Pre-Workout Formulas, Recovery Formulas, Weight Loss & Management, Amino, Creatine, Vitamins & Minerals

# SCITEC<sup>®</sup> NUTRITION

**MUSCLE AND WEIGHT GAINER SHAKES**  
(FORMULAS WITH CARBOHYDRATES)

**MUSCLE ARMY**

**VITAMINS & MINERALS**

**CEDRIC MCMILLAN SIGNATURE STACK**

**WEIGHT-CONTROL FORMULAS**

# FOR ALL THOSE GREASY JOBS NO ONE WANTS TO DO... USE **DE-OIL-IT**®

- 100% Cleans, Degreases & Degrades Oil Waste
- No Toxic Residue Left to Clean Up
- No Downstream Pollution
- Safe for the Environment
- Eliminates ocean fuel & oil spills
- Cleans toxic land sites
- Hazmat - Road side spills
- Reduces the risk of fire & explosions
- Eliminates oil stains & foul odors
- Hydraulic Fluid spills
- Grease build-ups
- Grime & Sludge
- Oil tanks, Ship bilges
- Engines, Machinery, Parts
- Shop tools, Greasy hands
- Uniforms, Shop rags
- Shop floors, Etc...
- Non-toxic
- Biodegradable
- Contains no solvents  
microbes, enzymes  
or nutrients
- Safe to use
